In his latest book, *On Art: Feed History, Travel, and La Cosa Nostra*, award-winning author John A. Scott takes readers on a fascinating journey that spans centuries and continents. This comprehensive and engaging book explores the interconnected worlds of food and art, history and travel, and the Sicilian Mafia.

Scott begins by exploring the role of food in art. He argues that food is not simply a sustenance, but also a form of expression. Throughout history, artists have used food to symbolize a variety of themes, from love and desire to poverty and war. Scott provides numerous examples of food-related artwork, from the still lifes of Caravaggio to the pop art of Andy Warhol.

In the second part of the book, Scott turns his attention to the relationship between history and travel. He argues that travel can be a powerful way to learn about the past. By visiting historical sites and experiencing different cultures, we can gain a deeper understanding of the world around us. Scott shares his own experiences traveling to Italy, Sicily, and other countries, and he shows how these experiences have influenced his work as an artist.

The third part of the book focuses on the Sicilian Mafia. Scott provides a comprehensive overview of the history and activities of this organized crime syndicate. He discusses the Mafia's origins in the 19th century, its rise to power in the early 20th century, and its decline in recent years. Scott also explores the Mafia's impact on Sicilian culture and society.

On Art: Feed History, Travel, and La Cosa Nostra is a rich and rewarding book that offers a unique perspective on the interconnected worlds of art, history, travel, and crime. Scott's writing is clear and engaging, and he provides a wealth of information and insights. This book is a must-read for anyone interested in these fascinating subjects.
