The author, Nawal El Saadawi, was born in a small village in Egypt in 1931. Her family was poor, and she was one of nine children. As a child, she was subjected to female genital mutilation, a practice that is still common in many parts of Africa and the Middle East. This experience had a profound impact on her life, and she has since become a vocal advocate against the practice.

El Saadawi went on to become a doctor and a writer. She has written more than 50 books, which have been translated into more than 30 languages. Her work has been praised for its honesty, its insights into the lives of women in the Arab world, and its advocacy for social justice.

In *Out of Egypt*, El Saadawi tells the story of her life, from her childhood in a poor village to her career as a doctor and a writer. She writes about the challenges she faced as a woman in a patriarchal society, and about her struggles for freedom and equality. She also writes about the importance of education, and about the power of women to change the world.

Out of Egypt is a powerful and inspiring memoir. It is a must-read for anyone who has ever faced adversity, and for anyone who is interested in the lives of women in the Arab world.
