3. **Turn Your Steering Wheel:** As you approach the space, turn your steering wheel fully towards the curb.
4. **Reverse In:** Slowly reverse your car into the space, keeping your eyes on the curb.
5. **Straighten Your Wheels:** Once your car is mostly in the space, straighten your steering wheel and continue reversing.
6. **Adjust Your Position:** If necessary, make minor adjustments to your steering and positioning to ensure your car is parallel and within the lines.
