Smith begins by asking what it means to believe. He argues that faith is not simply about accepting a set of doctrines or dogmas. Rather, it is about trusting in something or someone that you cannot fully understand. Faith is a leap of faith, a willingness to believe in something that you cannot see or touch.

But why should we have faith? What is the point of believing in something that we cannot prove? Smith argues that faith is essential for living a meaningful life. It gives us hope in the midst of suffering, and it inspires us to love others and to make the world a better place.

Of course, faith is not always easy. There are times when we doubt, when we question our beliefs. But Smith argues that doubt is not necessarily a bad thing. In fact, it can be a sign that we are growing in our faith.

Plan Further Thoughts On Faith is a book that will challenge your beliefs and inspire you to think more deeply about your faith. It is a book that will help you to grow in your faith, and to live a more meaningful life.
