

The Defining Moment: An In-Depth Look at the Assassination of President John F. Kennedy

On November 22, 1963, President John F. Kennedy was assassinated in Dallas, Texas. His death sent shockwaves around the world and plunged the nation into mourning. In the years since, countless books have been written about the assassination, but none have captured the full scope and complexity of the event like *The Defining Moment*.

Drawing from a wealth of primary sources, including never-before-seen documents and exclusive interviews, historian and author William Manchester has crafted a gripping and revelatory narrative that will captivate readers from start to finish. Manchester takes us inside the Kennedy White House, where we witness the president's struggle with the

Cold War, the civil rights movement, and the growing tensions in Vietnam. We follow Kennedy to Dallas, where he is greeted by a mix of adoring fans and angry protesters. And we are there with him on that fateful day in Dealey Plaza, when the shots rang out and changed the course of history.

The Defining Moment is more than just a retelling of the assassination of John F. Kennedy. It is a comprehensive and meticulously researched account of one of the most pivotal events in American history. Manchester provides a nuanced and balanced perspective on the assassination, exploring the motives of Lee Harvey Oswald, the role of Jack Ruby, and the myriad of conspiracy theories that have surrounded the case for decades.

The Defining Moment is a must-read for anyone interested in American history, the Kennedy presidency, or the assassination itself. It is a powerful and moving account of a tragedy that forever changed the course of our nation.
