The seven secrets that the Goddess of Wisdom teaches are:

1. **Know your worth.** This means understanding your income, expenses, and assets. Once you have a clear picture of your financial situation, you can start to make informed decisions about how to manage your money. 2. **Set financial goals.** What do you want to achieve with your money? Do you want to buy a house? Retire early? Pay for your children's education? Once you know what you want to achieve, you can start to develop a plan to reach your goals. 3. **Create a budget.** A budget is a plan for how you will spend your money each month. It is an essential tool for managing your finances and achieving your financial goals. 4. **Invest your money.** Investing is one of the best ways to grow your wealth. There are many different ways to invest, so it is important to find an investment strategy that meets your needs and goals. 5. **Protect your assets.** Insurance is an important way to protect your assets from unexpected events. Make sure you have adequate insurance coverage to protect your home, car, and other belongings. 6. **Plan for retirement.** Retirement planning is essential for ensuring that you have enough money to live comfortably in retirement. Start saving for retirement as early as possible and take advantage of tax-advantaged retirement accounts. 7. **Seek professional help when needed.** If you are struggling to manage your finances, don't be afraid to seek professional help. A financial advisor can help you develop a personalized financial plan and provide you with the support you need to achieve your financial goals.
