In her groundbreaking book, *Working Families and the Revolution at Home*, Jennifer Weiss-Wolf argues that the traditional model of work and family life is broken. She shows how the demands of the modern workplace are putting a strain on families, and how the lack of affordable childcare and other supports is making it difficult for parents to balance their work and family responsibilities.

Weiss-Wolf offers a powerful and inspiring vision for a better future, one where working families can thrive. She calls for a revolution at home, a fundamental shift in the way we think about work and family. She argues that we need to create a more equitable and sustainable future for all working families, one where parents can have fulfilling careers without sacrificing their families, and where children can grow up in healthy and supportive environments.

Working Families and the Revolution at Home is a must-read for anyone who is interested in the future of work and family. It is a powerful and inspiring book that offers a blueprint for a better future.
